

LECTURE

How is health across borders?

Gustavo Carona^{1,2}

From the 23rd EFPT Forum, Porto, Portugal. 22–27 June 2015.

Abstract

The personal perspective of a doctor who has worked in some of the worst areas in terms of humanitarian need of our days. Medicine assumes a completely different role, although the aim is the same no matter where: save lives and improve

the quality of life. Our task as a doctor and as an human being should always be seen as citizens of the world, because health issues has no borders.
